- The meeting was informed that the Russians are considering readmitting the SPD in their zone. If this step is taken it will not mean a weakening of the SED but simply an SED penetration of the SPD. Such a new SPD in the Russian Zone would be built up under reliable SED leaders. The Russians would gain two advantages by readmitting the SPD:
 - a. A strengthening of their position vis-a-vis the other powers, since it would rob the latter of one of the strongest arguments against the SMA.
 - b. The establishment of relations with the entire SPD and, through it, with the Labor Party in England.
